Type	Rotary rear discharge
Cutting width	54
No. of blades	2
Adjustment	1 action lever
Min cutting height	25mm
MOWER DECK SSM54	
Type	Rotary side discharge
Cutting width	54
No. of blades	3
Adjustment	Pin type
Min cutting height	25mm
COLLECTOR SBC950	
Capacity	950 litres
Blower	Turbine fan
Dump & lift	Hydraulic
Dump height	2125mm

Introducing the new Iseki SF235 out-front rotary mower-collector, offered with a 32.5hp engine and a choice of cutting decks measuring 54" or 60" wide. These high performance out-front rotary mower-collectors are designed to facilitate grass cutting in the most difficult areas.

Height of cut can easily be adjusted from 25-120mm without the use of tools, using the single height adjustment lever.

An impressive 950 litre, turbine driven, high-tip collector boosts efficiency when collecting grass. Its clearance height of 2125mm provides superior access when depositing the cut grass into waste skips, collector trucks or bins.

Routine servicing and maintenance is refreshingly easy with excellent access to the engine, radiator and service points.
